Subject: Thank You!

Jim Schoenfield-Walker Electric Inc.

I would like to take this opportunity to thank you for the great job that Walker Electric has performed for us thus far in the French Hall renovation project phase 1. It has been a pleasure working with your employees who have done quality work over there. As mechanical trades liaison (and sometimes electrical) for UM-Flint on the renovation project, I have been involved with all facets of the remodel thus far. I have had very few problems that were immediately corrected by your crews because they are conscientious, and talented employees. Please pass on my appreciation to all those involved. I know many of them by name such as Ray, Scott, Todd, Karl etc.

During the occupancy permit visit by the State Fire Marshall on January 4, 2008, Scott went out of his way to install and wire a fan shutdown relay that was critical to us passing and receiving a temporary permit. Your whole crew has worked hard over there, and at times I noticed there were 5 or 6 foremen working together to ensure project completion. I consider that above and beyond and take notice.

I look forward to continued success with Walker Electric on this and future projects.

Sincerely,

Kenneth J. Ellison
